In this volume, a distinguished group of scholars and theologians delve into the groundbreaking work of Louis Weil and its profound impact on our understanding of baptism and the Church. Through a series of thought-provoking essays, they explore the ecclesiological implications of Weil's emphasis on baptism as the foundation of Christian identity and the source of the Church's authority.

Chapter 1: The Baptismal Ecclesiology of Louis Weil

This chapter provides a comprehensive overview of Weil's ecclesiological framework, beginning with his seminal work, "The Origin of the Church." Weil argued that baptism, as the moment of incorporation into the body of Christ, is the foundational event that establishes the Church.

Chapter 2: Baptism and the Authority of the Church

Weil's emphasis on baptismal ecclesiology has significant implications for the authority of the Church. This chapter examines how Weil redefines authority not as a top-down imposition, but rather as a consequence of the baptismal priesthood of all believers, who participate in the mission of Christ.

Chapter 3: Baptism and the Unity of the Church

In a world marked by division and fragmentation, Weil's ecclesiology offers a powerful vision of Christian unity. Baptism, as a sign of belonging to the one body of Christ, transcends denominational and geographical boundaries, creating a foundation for unity in diversity.

Chapter 4: Baptism, Mission, and the Future of the Church

This chapter looks ahead, exploring how Weil's baptismal ecclesiology can inspire and guide the Church as it faces new challenges and opportunities. Baptism calls us to participate in the mission of God, to witness to Christ, and to build up a more just and equitable society.

Chapter 5: Baptism and the Dialogue with Other Faith Traditions

Weil's work has not only influenced Christian theology but has also sparked dialogue with other faith traditions. This chapter examines how Weil's ecclesiology can contribute to interreligious understanding and foster a spirit of cooperation in building a better world.
